EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma
Centennial College, Toronto, ON

Sept. 2024 – Present
GPA: 4.2/4.5 (A)

Key Courses: Java/C# Programming | Unix/Linux Operating Systems| Software Requirements| Client-Side Web Development| Advanced Database Concepts (SQL)| Web Application Development

ACADEMIC PROJECTS

Web Design - C#, HTML, JavaScript

- Designed a responsive, user-oriented marketing website for a restaurant, showcasing detailed selections
- Created a scrolling image gallery, contact form, and responsive design for web and mobile browsing

Software Requirements Specification Document - EyeKeepNotes

- Initiated and led team efforts through mock SCRUM meetings, ensuring the development of an SRS document for the application, *EyeKeepNotes*, to support the visually impaired with accessible features.
- Designed UML diagrams, Swimlane Diagrams and State Diagrams, as well as documented functional/non-functional requirement sections

Retail Database - SQL

- Developed a database that allows retailers to manage company relevant data, such as customer information, product items, and inventory.

OTHER WORK EXPERIENCE

Grocery Clerk (Part-Time)

Longo's, North York, ON

May. 2021 – Present

- Offering high quality customer service to 100 patrons daily in a high-volume setting while managing other tasks including guests' inquiry, maintaining shelf stocks, and ensuring store tidiness.
- Providing excellent communication among team members to collaboratively tackle tasks as a team, clarifying uncertainties, assigning task delegations and keeping morale high.
